

QUESTION PAPER ENGLISH

SECTION A : READING SKILLS (20 marks)

1. Read the following text

1. The road to success is not straight : there is a curve called failure, a loop called confusion. Speed bumps called friends, caution lights called family, and you will have flats called jobs. But, if you have a spare called determination, an engine called preservice, insurance called faith, and a driver called God, you will make it to a place called success! In spite of all our planning and preparation, unexpected challenges are certain to arise. The bumps in the road are unavoidable, but you'll never get to your destination if you aren't willing to drive over them. The difference between a disaster and triumph lies in whether or not you're prepared and willing to weather the storm. If you're ready, those bumps will become stepping-stones.
2. The key thing to realize is that working harder is same as working smarter. How do you work smarter ? You just need to have the right skills. People want improved circumstances and better life without an improved self. They want victory without paying the price or making efforts. It really cannot happen without the other. Any improvements that have not been generated improving yourself are superficial and short-lived. If you want to have a better future, you have to change yourself. Stop worrying about the various challenges that will come your way. Just believe in yourself and use them as stepping stones.
3. "Success" is getting whatever you want out of life without violating the rights of others. It is not an accident. Success is the result of our attitude and our attitude is a choice. Hence success is a matter of choice and not chance. Today success represents a holistic and positive attitude of life. Attitude is everything. Success is not restricted within some kind of brick and mortar premises. It assumes the individually of a complete act executed with perfection, material achievements do not define life. We don't remember sports stars for the products they endorse but the spirit of achievement they represent. In the abundance of positive attitude underline the grandeur of a truly rewarding rich life.
4. Success can be measured from two standpoints-the external and the internal. Externally it is the measure of a job well done and recognition. Internally it is the feeling of achievement and wholeness derived from the completion of a task or fulfillment of desire.

- Over 80% of fatalities in road accidents in India happened due to speeding and dangerous driving a comparative analysis of National Crime Records Bureau (NCRB) data science 2014 shows. While this careless corroborates the popular perception of how people drive on the road in a country where getting a driving licence is often said to be too easy. Experts said most of the fatal accidents are recorded by police under speeding and dangerous driving categories in the FIR as there are no other provisions in the Indian Penal Code (IPC) for such offences.
- According to the latest NCRB report on accident deaths, 83.2% of road fatalities were on account of these two types of violations and the rest 16.8% of fatalities were due to reasons including drunk driving, bad weather conditions and mechanical defect. In 2014, when such causes of fatal crashes were first compiled, 89.4% of the deaths were due to speeding and dangerous or careless driving as per the police records and this was the highest ever.
- “We face a host of challenges ranging from poor system of issuing driving licences to almost zero scientific investigation of fatal crashes, which are provided in the law. Most of our national highways and state highways, which pass through villages, have no pedestrian crossings. On the top of this, in all fatal cases, police automatically registers them under section 279 (negligent driving resulting death) of the IPC,” said road safety expert Rohit Baluja, who has been a regular guest faculty at Indian Police Academy, Hyderabad.
- Confirming this, traffic adviser in Punjab, government, Navdeep Asija said in case of all fatal accidents, the provisions of IPC are slapped. “in IPC, any crime or offence has to be lodged against a human being and hence there cannot be any charge against a road, vehicle or any other object. That’s why police data may not indicate the exact reason of crashes. But it is also a fact that violation of traffic rules is rampant on roads and only electronic surveillance can put a check on them,” he added.

5. Baluja said there is a need to define what is dangerous driving and the norms for fixing speed limits. “In Delhi, the speed limit is same across major roads, Year residential areas and markets during day lean time and at night as well. No authorities are held responsible for deficiencies on their part,” he pointed out. Through the amended Motor Vehicle Act has included a provision to hold road owning agencies, contractors and consultants in case of fatal accidents due to faulty road construction or design, the government is yet to notify the process for this.

Answer the following questions, based on the passage.

- (i). Based on your understanding of the passage choose the option that lists accurate speed limit rules authorized in Delhi

 - (2) Same speed limit for major roads and residential.
 - (3) Same speed limit during day time and night time as well.
- (a) Only 1 (b) Both 1 and 2 (c) Both 2 and 3 (d) Only two
- (ii). Choose the option that lists statement that is NOT TRUE.
- (a) Police data may not indicate the exact reason for crashes.
 - (b) Fatal accident may occur due to faulty road construction.
 - (c) Violation of traffic rules is hardly observed on roads.

- (iii). In the line “..... the norms for fixing speed”, the word “norm” DOES NOT refer to :
